

ASA Newsletter – Term 1

Our after-school activity programme will be starting in October. In this newsletter we explain how we arrange our programme, how you can register your child and more information about the various activities you and your child can choose from in Term 1.

How does it work?

During the school year there are 2 rounds of registration, each consisting of 6 to 10 weeks of activities taking place at ISU. These activities are accessible to all primary children attending the ISU including those attending the BSO in the afternoon. Our teachers are experienced and proficient in their field and enjoy sharing their knowledge with your children.

Registration takes place in the month before we start the activities.

Do your child attend the BSO on the same day that he/she choose to do an activity? You will then receive a 30% reduction in the cost. The BSO caregivers will ensure your child attends the activity and return to the BSO afterwards.

How do I register?

Registration is via the Kind & Co website and by clicking on the link below you will reach the registration page. Registration is possible until **Friday 22 September 2023** on a first come basis and there is limited space in each lesson. Students must participate for the length of the activity and can't sign up for individual days.

If we receive enough registrations per activity that activity will be confirmed as going ahead. All parents will be informed of this before the start date. You will receive an email beforehand with practical information regarding where and when to pick up your child and if your child needs to bring something with to the activity.

Please make a note of the activity dates and when it finishes for Term 1. For future reference we suggest you download and save this Newsletter.

Woodworking & painting (Piet Mondriaan stijl)

For the coming months we'll be offering several workshops on woodworking for children aged 8 - 12. These workshops are planned on Tuesdays, from October until Christmas, which means 10 times in total. Each week we'll work for one hour on an item, sometimes this will result in something to play with, sometimes we'll work on a useful thing, sometimes the result will be an item which is nice to look at. Off course we'll often use the jigsaw and frequently we'll paint the resulting product before taking it home!

For the last 3 workshops the aim is to familiarise the children with the works of Piet Mondriaan, an internationally famous Dutch painter. We'll look at his early works, his later paintings in Europe and finally his works in New York, culminating in the famous: Victory Boogie Woogie. Woodworking is not difficult, is fun to do and useful for the children in many instances, so register to join the group!
